

Unit digit of given numbers

$$(251)^{98} = \dots 1$$

$$(21)^{29} = \dots 1$$

$$(106)^{100} = \dots 6$$

$$(705)^{35} = \dots 5$$

$$(16)^4 = \dots 6$$

$$259 = \dots 9$$

$$\therefore \text{Required answer} = 1 + 1 - 6 + 5 - 6 + 9 = 4$$

Hence, unit digit = 4
