WHY IOQM?

India's Gateway to Global Mathematics Excellence

 Gateway to IMO First step toward representing India at the International Mathematical Olympiad	 Olympiad Thinking Builds deep analytical reasoning beyond standard textbook mathematics	 Mathematical Creativity Encourages innovative, multi-approach problem solving skills
 Logical Reasoning Strengthens systematic deductive and inductive logic patterns	 Problem Solving 800–1000 hand-picked Olympiad problems with expert solutions	 National Recognition Nationally ranked achievement valued by IITs and top universities

COURSE HIGHLIGHTS

Everything You Need to Excel

 50h Live Interactive Classes	 1000+ Olympiad Problems	 Daily Assignments & Doubt Solving	 20 Mock Tests & Analysis	 HD Recorded Class Access
 10 Yr Previous Year Questions	 1:1 Personal Mentoring	 Full Theory Notes Provided	 AI Performance Analytics	 Cert Certificate of Completion

CURRICULUM

Six Pillars of Olympiad Mathematics

01 Number Theory Divisibility, Primes, Modular Arithmetic, Diophantine Equations	02 Algebra Polynomials, Inequalities, Functional Equations, Sequences	03 Geometry Euclidean Geometry, Circles, Triangles, Coordinate Methods
04 Combinatorics Counting Principles, Graph Theory, Pigeonhole, Permutations	05 Probability Classical & Conditional Probability, Distributions, Expected Value	06 Problem Solving Proof Writing, Competition Strategy, Time Management

WHY LEARN TO LEAD?

The Academy Built for Winners

 Concept-Based Teaching Deep understanding over rote memorisation	 Expert Olympiad Faculty IIT & Olympiad-qualified educators	 Small Batch Size Personalised attention for every student	 Weekly Assessments Continuous progress tracking & analytics
 Personal Guidance One-on-one mentoring every week	 Performance Tracking Detailed reports & improvement roadmaps	 Interactive Classes Engaging discussion-driven live sessions	 Proven Results Track record of toppers & qualifiers
